

January 13, 1976

PRESIDENT: Are you asking for unanimous consent, Senator?

SENATOR FOWLER: Yes.

PRESIDENT: Is there an objection? There is an objection, Senator. Senator Fowler still has the floor. Do you want to make a motion now, Senator? All right. Is there an objection to the bracketing until January 29th? Seeing none, it is so ordered.

CLERK: LB 394. This is a bill relating to no-fault motor vehicle insurance. On May 16th, 1975, the bill failed to advance. On May 19th, the bill did advance. On January 8th, the Committee amendments were considered. On January 8th of this year, they were considered. No action was taken. Again, Mr. President, this is one of those bills that was advanced off of General File with no action on the Committee amendments. I have a series of amendments pending to the bill.

PRESIDENT: Senator Murphy, would you address yourself to this matter?

SENATOR MURPHY: It was my understanding that this body voted to bracket that bill in position indefinitely.

PRESIDENT: Yes, that was my recollection, until 1982 or something, wasn't it, Senator Murphy?

SENATOR MURPHY: Well, until Congress makes up its mind.

PRESIDENT: Yes, 1984, then.

SENATOR MURPHY: 1984, then, you are all heart. I would prefer to leave it bracketed just as it is without any consideration of amendments because it would be an exercise in futility anyhow.

PRESIDENT: Senator Murphy, this will be bracketed until you take some affirmative action, then, is that correct?

SENATOR MURPHY: Yes, sir.

PRESIDENT: All right, then it need not come up on our schedule again until Senator Murphy requests it.

SENATOR MURPHY: Thank you.

PRESIDENT: Thank you, Senator. LB 409. Senator Goodrich, for what purpose do you arise?

SENATOR GOODRICH: Just curious. All these five bills here are bracketed indefinitely. There is no particular date we open them up. I was just curious as to why we are opening them up today.

PRESIDENT: We want to get some work done and the Speaker said we are going to take them up and try to dispose of as much work as possible. You want to continue to bracket this?
